

Congratulations

to Josua Krause of team UN Mercatorians
for successfully completing the 2023 UN Datathon

The UN Datathon 2023 was organized from 3 to 6 November 2023 by the United Nations Committee of Experts on Big Data and Data Science for Official Statistics, the UN Major Group for Children and Youth and the National Statistical Institute of Uruguay in collaboration with the UN Regional Hubs for Big Data in Brazil, China, Rwanda, and the United Arab Emirates, as well as the University of Geneva, and the Australian Data Science Network, and with the support of AWS, Esri, and Oblivious.
